TRAVEL TIPS · YOUR POCKET CHECKLIST

A Day Out in Bavaria

A few checks before you go.
A few things worth packing.

Ready for a day out

PLAN THE EVENING BEFORE | PACK FOR YOUR DAY | KEEP THE RETURN IN MIND

01 / MAKE THE PLAN

Before you go

1. **Weather & daylight**
   Check the radar and sunset. Leave enough daylight for the way down.
2. **There and back**
   Check both journeys, transfers and the last bus, boat or cable car you need.
3. **A little breathing room**
   Choose a connection with time to change. Keep a shorter Plan B in mind.
4. **Ready without signal**
   Download your map and screenshot the connections. Charge your powerbank.

02 / THE EVERYDAY ESSENTIALS

Always in my bag

- [ ] Phone, charged powerbank & cable (min. 1.5 m)
- [ ] Card, its PIN & at least €50 cash
- [ ] Sunglasses, cap & sunscreen
- [ ] Water (at least 1 litre) & a snack
- [ ] Packable rain-and-windproof jacket
- [ ] Offline map & journey screenshots

Sockets on trains can be awkwardly placed — a longer cable helps.

For toilets: keep 2 × 50-cent and 2 × €1 coins handy. Card payment may not be available; check whether the contribution is optional or a set fee.

03 / HEADING FOR THE HILLS?

Hiking day

- [ ] Footwear suited to the trail
- [ ] Fleece & a spare T-shirt
- [ ] Small foldable seat cushion
- [ ] Extra layers for a colder forecast

Choose your route around the conditions and the time you have.

03 / WANDERING AROUND TOWN?

City day

- [ ] Small foldable umbrella
- [ ] Comfortable walking shoes
- [ ] Foldable tote bag
- [ ] Small foldable seat cushion
- [ ] Swimwear & towel, if that is the plan

I keep Where is Public Toilet on my phone for the obvious reason.

One last check on the platform

Check your carriage's destination and when your ticket becomes valid. I try to arrive at least 15 minutes early.

Haki tip — leave room to enjoy it.
A jacket and a seat cushion help me stay for the view. Pack for the time you want to spend there, not just the journey there.

My everyday checklist, based on the Travel Tips guide.
Adjust your kit to the weather, route and length of the day.
