PRACTICAL BAVARIA

Renting a car in Bavaria

A checklist for booking, pickup and return.

- [ ] **Documents ready**
  Bring your licence and ID. Check whether your licence needs a translation or an International Driving Permit.
- [ ] **The full price, please**
  Check the deposit, excess, mileage and extra fees. Confirm an automatic if you need one, and a payment card the supplier accepts.
- [ ] **Borders and the route**
  Get permission for trips abroad. Check extra fees, tolls and vignettes for your actual route before booking.
- [ ] **Before you drive away**
  Photograph the bodywork, wheels and glass. Have existing damage recorded and save the roadside-assistance number.
- [ ] **Ready for the conditions**
  Confirm suitable tyres, safety equipment and any emission-zone restrictions. Download maps before you lose signal.
- [ ] **Return it as agreed**
  Check fuel or charging rules and return hours. Take final photos and keep the handover receipt.

Haki tip — compare the total, not the headline.

A cheap daily rate can grow once you add insurance, extras and parking. Get the conditions in writing before you pay.
