TRAVEL GREENER, EXPLORE DEEPER

PRACTICAL BAVARIA

# When to visit Bavaria

Four seasons. Pick the trip that suits you.

1 **Spring · March–May**
City walks, gardens and fresh green hills. Pack a rain layer; high trails can still hold snow.

2 **Summer · June–August**
Lakes, long evenings and mountain days. Start early, try weekdays and check the forecast for heat and storms.

3 **Autumn · September–November**
My favourite light for photos. Days get shorter; check snow, hut openings and the last lift before a hike.

4 **Winter · December–February**
Cities, skiing and maintained winter paths. Christmas markets belong to November–December, not the whole winter.

**Haki tip — I would pick September.**

For walking and photos, it is my favourite so far. Check Oktoberfest dates if staying in Munich, and mountain conditions before setting off.

**Read the full guide → hakitravels.com**

Winter mountain advice is researched; I have not published a winter hike yet.
Checked 9 Oct 2026. Confirm current details before your trip.
